Here is the draft. I'll have to see if we have other modeling done for other timepoints/ages.

I think the modeling should be pretty straight forward (we may have already done most of what we need), so maybe with a little direction from Andrew and Karen we can get SRC on it pretty quickly.

I believe I'm the only EPA statistician on the team. For the most part the noncancer was done by contractor, some (or all?) through John.

Subject: B[a]P statistician?

Hi Karen and John,

I was wondering if you can please let me know the SWG workgroup member assigned to work on the B[a]P revision? Karen, I know that you were involved when I was participant in discussions about the dose-response data, but I have been out of the loop on that for a couple years now.

I am hoping to discuss some new BMD modeling we may want to ask SRC to do to address the SAB criticisms.

Thanks,
Andrew
